

## Environmental Policy

It is DEEPBLUE's policy to achieve environmental excellence in all aspects of our business operations. DEEPBLUE's approach to environmental management is to continuously improve performance by taking into account evolving scientific and practical knowledge within the shipping sector. DEEPBLUE, as a reputable and responsible ship manager, has made a commitment to achieve a reduction in pollution, conserve and protect the environment, and;

- DEEPBLUE will ensure that the utmost care and all possible actions, with the available capabilities and resources, will be undertaken to prevent pollution through safe and efficient operations in the office;
- DEEPBLUE will strive to continuously update, monitor, and control environmental risks whereby specific objectives and targets will be set and reviewed on an annual basis;
- DEEPBLUE will comply with ISO 14001, all relevant rules, regulations and industry guidelines and where possible, further reduction of the environmental impact of operations by volunteering and cooperating with community environmental protection activities;
- DEEPBLUE will ensure that all company employees are informed about the environmental policy, objectives, and targets and their individual duties in that regard;
- DEEPBLUE will seek to reduce consumption of materials, reuse rather than discard where practicable, and promote recycling and the use of recycled materials;
- DEEPBLUE will encourage our suppliers to continuously reduce the impact of their operations by giving preference to environmentally friendly products whenever it is economically feasible;
- DEEPBLUE will strive to continuously improve environmental performance of all operations.

## Safety & Health Policy

It is DEEPBLUE's policy that all activities will be carried out with safety and health as an overriding consideration, which means;

- DEEPBLUE protects the health and safety of its employees and ensures that their work will not adversely affect the health, safety and property of others;
- DEEPBLUE provides the means and arrangements to minimize and remedy harm and injuries from accidents that may occur;
- DEEPBLUE recognizes that safety and health is management's responsibility;
- DEEPBLUE emphasizes and focuses on the importance of safety and health;
- DEEPBLUE provides all its employees with regular medical check-ups, information, equipment and necessary training for them to carry out their work in a safe and healthy manner;
- DEEPBLUE recognizes that safety and health matters are a line management responsibility to be managed in the same way, using the same techniques as other business parameters, such as cost control or marketing;
- All employees are expected to act responsibly to prevent injury to themselves, their colleagues, or to property.
